Subject: seq srch please?

Good morning,

Could you please search the nucleic acid from 09/883,152 SEQ ID NO:3 against all nucleic acid databases including pending.

I have a limitation of at least 50 contiguous nt and at least 100 contiguous nt of SEQ ID NO:3, so if there are many hits could you please print enough results to accommodate such limitations?

Thanks so much!

Sally Sakelar
